"He has let loose the two seas, converging together, with a barrier between them they do not break through. And it is He Who has caused the two seas to flow, this palatable and sweet, and that saltish and bitter; and between them He has placed a barrier and a great partition." (The Qur'an, 55:19-20)

Oceanographers now discovered that seas come together but do not mingle with each other due to differences in their surface tension and density.

February 2014 Rabi' II 1435

Pangaea
220 million years ago
There is only one land mass, Pangaea, in a vast ocean called Panthalassa.

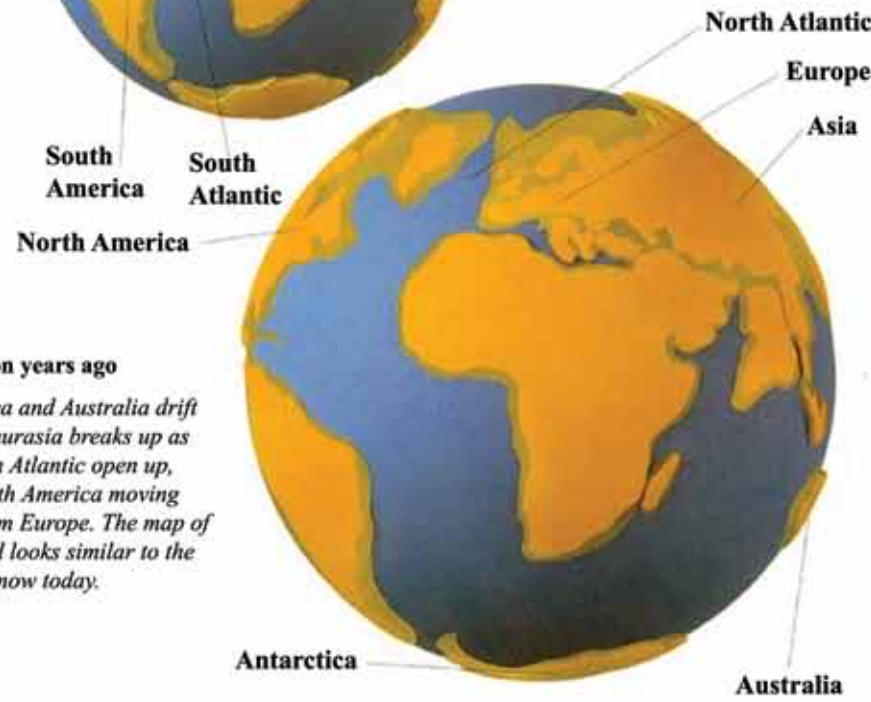

Panthalassa
200 million years ago
The growing Tethys Sea splits Pangaea into Gondwanaland and Laurasia.

"You will see the mountains you reckoned to be solid going past like clouds." (The Qur'an, 27:88)

Africa
India
135 million years ago
Gondwanaland splits into Africa and South America as the South Atlantic opens up. India drifts toward Asia.

10 million years ago
Antarctica and Australia drift apart. Laurasia breaks up as the North Atlantic open up, with North America moving away from Europe. The map of the world looks similar to the one we know today.

Allah referred to the motion of mountains as drifting in a verse of the Qur'an. Today, modern scientists also use the term "continental drift" for this motion.

"We made the sky a preserved and protected roof yet still they turn away from Our Signs." (The Qur'an, 21:32)

The magnetosphere layer, formed by the magnetic field of the Earth, serves as a shield protecting the earth from celestial bodies, harmful cosmic rays and particles. Aurorae shown in this picture occur when solar material is spontaneously thrown toward Earth.

"And thy Lord taught the bee to build its cells in hills, on trees and in (men's) habitations... there issues from within their bodies a drink of varying colors, wherein is healing for mankind. Verily in this is a Sign for those who give a thought." (The Qur'an, 16:68-69)

Clinical observations and experimental studies have established that honey has effective antibacterial and anti-inflammatory properties. Astonishingly, it painlessly removes pus, scabs and dead tissue from wounds and stimulates new tissue growth.

“And We sent down iron, in which is mighty power, as well as many benefits for mankind.” (The Qur’an, 57:25)

Eifel tower is made of Iron (not steel)!

Iron is an incredibly useful substance. It's less brittle than stone yet, compared to wood or copper, extremely strong.

"Allah is the Light of the heavens and the earth. The metaphor of His Light is that of a niche in which is a lamp, the lamp inside a glass, the glass like a brilliant star, lit from a blessed tree, an olive, neither of the east nor of the west, its oil all but giving off light even if no fire touches it. Light upon Light. Allah guides to His Light whoever He wills and Allah makes metaphors for mankind and Allah has knowledge of all things." (The Qur'an, 24:35)

Olive oil is used for many purposes, the health benefits of olive oil have been researched and proven.
